

REQUEST FOR DECOMMISSIONING OF RADIOACTIVE MATERIALS LABORATORY

Please complete this form upon your decision to terminate use of radioactive materials (RAM) in your laboratory.

If RAM stocks and/or waste are present in your laboratory you will need to make arrangements to have them properly disposed of. Alternatively, RAM stocks may be transferred to another authorized RAM PI **with the RSO's approval.**

PLEASE DO NOT REMOVE ANY RAM LABELS FROM ANY EQUIPMENT. RSO staff will need to swipe all equipment and RAM use areas. Only RSO personnel may remove RAM labels.
